Do You Read Directions?
(You have 5 minutes! This is a timed test!)

1. Read everything carefully before beginning this exercise.
2. Print your name in the bottom right hand corner of this paper.
3. On the reverse side of this paper, figure out how many teaspoons equal gallon.
4. Write you answer in the bottom left hand corner of this paper.
5. Draw a box around it.
6. In the upper right hand corner, draw 16 Tablespoons.
7. Now draw a circle around each Tablespoon.
8. To the left of the Tablespoons, draw 1 cup.
9. Quietly tell the student to your left that 1 cup equals 16 Tablespoons.
10. Color 8 of those Tablespoons.
11. Quietly tell the student to your right that 1/2 cup equals 8 Tablespoons.
12. In the middle of the top of this paper draw 3 teaspoons.
13. Underneath that draw 1 Tablespoon.
14. You now know that 1 Tablespoon equals 3 teaspoons.
15. On the reverse side of the paper, write “I have followed all directions. I am almost finished!”
16. Thank you for reading this so carefully. Please only do direction number 2.
